Veronica Rudiuk

IOS DEVELOPER

veronicarudiuk@gmail.com GitHub Veronica Rudiuk Telegram @negamr

I'm an iOS Developer based in Batumi, Georgia.
I specialize in UIKit and SwiftUI to build mobile apps. My experience spans various databases, APIs, and frameworks.
For detailed project documentation and more insights, please visit my GitHub profile.

EXPERIENCE

iOS Developer

Leadsdoit (remote) — Jun 2022 – Currently

- Develop applications using UIKit and SwiftUI frameworks, focusing on core functionality and front-end aesthetics.
- Implement Firebase for backend operations, user authentication, and data handling.
- Manage local data storage and synchronization using CoreData and Realm, ensuring efficient data flows and offline capabilities.
- Collaborate with project teams to design, develop, and optimize applications with real-time data integration using multiple RESTful APIs.
- Work in an Agile environment, utilizing Git for version control and continuous integration.
- Key projects include a Football Match Viewer App, Challenge Tracker App, and various interactive games, all designed to enhance user engagement and provide real-time updates.

Summary:

- Company specializes in developing custom apps for clients in the betting industry. My role involves crafting high-performance apps that consistently pass Apple's App Store review, ensuring rapid market entry and compliance.

SKILLS

Programming Language

Swift

Frameworks and Libraries

UIKit, SwiftUI, Realm, CoreData

Design Patterns

MVVM, Coordinator, Dependency Injection

Technologies

Firebase, UnityAds, Git, GitHub, REST APIs

Tools

Xcode, Postman, Figma

Languages

- Russian (Native)
- English (Intermediate)
- Polish (Elementary)

EDUCATION

iOS Developer

Swift Marathon Production — 2022 – 2023

iOS Bootcamp by Dr. Angela Yu

Udemy — 2022

IOS Developer

TeachMeSkills — 2021 - 2022

Bachelor's Degree in International Management

Belarusian National Technical University, Minsk — 2014 - 2018

Additional Information

Before my career shift to iOS development, I spent three years as a Level Designer in the game development industry, where I honed my skills in user-centered design and interactive media.
